

YUEDU YD-338CC Series Shredder

YUEDU YD-338CC Series Shredder

Dual-feed inlet design for convenient bulk feeding and shredding. Supports continuous operation. Equipped with integrated steel cutters and a blade lubrication system.

The YD-338CC series can shred up to 60 sheets per pass.

Suitable for shredding:

Financial vouchers, paper documents, paper clips, CDs, and cards.

Commonly used in:

Design institutes, large offices, archives rooms, QC departments, bulk document shredding, financial document destruction, and centralized destruction of technical drawings.

Open Feeding Inlet – Large Opening for Easy Feeding

Waste paper bins, paper bundles, and packaging materials can be directly fed into the machine.

🌱 The hopper is closed by default at the factory, leaving only a small opening.

If you require a fully open large hopper inlet, please contact customer service before placing your order for customization.
