

# YD-5003 Shredding & Baling System

**Secure Material Destruction System | Centralized Classified Document**

**Destruction & Automatic Baling System | Secure Destruction Solution for**

**Secrecy Bureaus**

Designed for Secrecy Bureaus, Government Agencies, Military Organizations, Archives, and Professional Document Destruction Centers.

## Product Overview

The YD-5003 Shredding & Baling System is an integrated secure destruction solution combining document shredding, automatic conveying, material collection, and hydraulic baling into one complete system.

The system is designed for high-volume destruction of classified documents, archives, financial records, tender documents, and other paper-based confidential materials.

After shredding, the material is automatically conveyed to the baling system for compression. The compressed paper blocks can reduce waste volume by more than 70%, making transportation, storage, and recycling more efficient.

## Product Features

- Whole files can be fed directly without removing staples
- Continuous-duty operation for high-volume destruction

🌐 **Website(Global):** <https://yuedushredders.com>

✉ **Email:** yuedushredders@gmail.com

☎ **Phone WhatsApp:** +86 159 0178 2779

- Automatic discharge conveying reduces manual handling
  - Automatic baling reduces waste volume and transportation costs
  - Heavy-duty industrial structure for reliable operation
  - Multiple safety protection systems
  - Designed for long-term operation in secure destruction centers
- 

## Key Advantages

### Direct Destruction of Whole Documents

No need to remove staples or disassemble files before shredding.

---

### Automatic Conveying

Reduces manual material handling and improves efficiency.

---

### Automatic Volume Reduction

Shredded materials are automatically compressed into compact bales.

---

### Continuous Operation

Ideal for centralized destruction facilities and high-volume applications.

---

 **Phone WhatsApp:** +86 159 0178 2779

## Shreddable Materials

- Classified documents
  - Financial records
  - Archive materials
  - Tender documents
  - Books and bound materials
  - Office documents
  - Confidential paper media
- 

## Workflow

Classified Documents

Industrial Shredder

Automatic Conveying

Hydraulic Baling

Centralized Recycling & Disposal

---

## Typical Applications

- Secrecy Bureau Destruction Centers

 **Website(Global):** <https://yuedushredders.com>

- Government Archive Departments
  - Military Secure Destruction Facilities
  - Banking Archive Centers
  - Professional Document Destruction Companies
  - Large Enterprises and Institutions
- 

## Project Reference

### Provincial Secrecy Bureau Classified Material Destruction Project

The YUEDU YD-5003 Shredding & Baling System has been successfully deployed in a Provincial Secrecy Bureau secure destruction center.

The system provides automated shredding, conveying, and baling of classified documents, significantly improving destruction efficiency, reducing labor costs, and supporting standardized secure destruction management.

---

## About YUEDU

Shanghai YUEDU Technology Co., Ltd. specializes in the development and manufacturing of secure destruction equipment, industrial shredders, and customized destruction systems.

Our products are widely used by government agencies, military organizations, financial institutions, archives, and professional destruction centers.

We are committed to providing secure, efficient, and compliant destruction solutions worldwide.

 **Phone WhatsApp:** +86 159 0178 2779

## Standard Configuration

This system is designed for high-volume destruction of classified documents.

The equipment combines an industrial-grade shredding unit with an automatic baling system to achieve continuous operation and automatic volume reduction.

## Technical Specifications

Item	Specification
Product Description	YD-5003 Book & Document Shredding and Baling System
Shreddable Materials	Paper, computer printouts, paper clips, folders, credit cards, CDs, floppy disks, USB drives
Cut Type	Cross-Cut
Cut Width	11.8 mm
Particle Length	15–65 mm
Sheet Capacity (70g/m <sup>2</sup> )	600–650 sheets
Throughput Capacity	1000 kg/h
Feed Opening Width	500 mm
Material Collection	Conveyor System
Shredding Speed	210 mm/s
Motor Power	24 kW
Voltage	400 V
Frequency	50 Hz
Warranty	12 Months
Length	1200 mm
Width	5400 mm
Height	2600 mm
Weight	2800 kg

 **Email:** yuedushredders@gmail.com

 **Phone WhatsApp:** +86 159 0178 2779

## Optional Configurations & Upgrade Solutions

### Shredding Size Upgrade

Different shredding sizes can be customized according to security requirements.

Available options include:

- 8 mm standard size
- 5 mm secure size
- 2 × 15 mm high-security size
- 1 × 2 mm powder-like particles

The 1 × 2 mm shredding result can achieve:

- DIN 66399 P-7 Security Level
- China National Secrecy Bureau Level 1 Destruction Standard

Suitable for top-secret documents, classified archives, and highly confidential media.

---

### Feeding System Upgrade

For users with large-scale destruction requirements, higher-capacity feeding systems are available.

#### Book Shredding Feeding System

A high-power book shredder can be installed as the primary feeding unit.

Capable of handling:

- Entire boxes of books
- Complete archive files
- Bound financial records

 **Website(Global):** <https://yuedushredders.com>

 **Email:** yuedushredders@gmail.com

 **Phone WhatsApp:** +86 159 0178 2779

Improving overall destruction efficiency.

---

## Large Hopper Feeding System

Large-capacity hopper design allows:

- Carton feeding
- Pallet feeding
- Bulk classified material feeding

Reducing manual unpacking and sorting work.

---

## Forklift Loading System

Designed for large destruction centers.

Supports:

- Palletized document feeding
- Full-box archive feeding
- Continuous high-volume operation

Suitable for provincial secrecy bureaus, large archives, and professional destruction facilities.

---

## Discharge System Upgrade

Different bale shapes can be selected according to transportation and recycling requirements.

 **Website(Global):** <https://yuedushredders.com>

 **Email:** yuedushredders@gmail.com

 **Phone WhatsApp:** +86 159 0178 2779

## Large Rectangular Bale System

High-density compression.

Suitable for:

- Long-distance transportation
  - Centralized storage
  - Paper mill recycling
- 

## Cylindrical Bale System

Compressed material is formed into cylindrical paper blocks.

Features:

- Automatic discharge
  - Easy stacking
  - Uniform shape
  - Suitable for automated transportation
- 

## Customized System Integration

YUEDU can provide customized solutions including:

- Conveying Systems
- Shredding Systems
- Dust Collection Systems

 **Website(Global):** <https://yuedushredders.com>

 **Email:** yuedushredders@gmail.com

 **Phone WhatsApp:** +86 159 0178 2779

- Baling Systems
- Spark Detection Systems
- Explosion-Proof Systems
- Central Monitoring Systems

Providing complete secure material destruction center solutions.

## **About YUEDE Shredders**

Shanghai YUEDU Technology Co., Ltd. is a **Shanghai-certified high-tech enterprise** specializing in the development and manufacturing of **shredding and destruction equipment**. We serve a wide range of sectors including **government agencies, financial institutions, military departments, enterprises, and recycling industries**.

Our offerings include **office and industrial-grade paper shredders, hard drive destroyers, plastic crushing systems, and fully customized destruction center solutions**. From design to delivery, we help clients achieve efficient, secure, and compliant material destruction.

---

## **Our Mission**

We are dedicated to the shredding and destruction industry, continuously solving diverse material shredding and disposal challenges for our clients around the world.
